

WE NEED YOUR HELP.

Our Energy, Our Future A Dialogue With America

Senators are drafting climate change legislation NOW, and you can impact the outcome.

Climate change legislation should be:

- Fair**
- Affordable**
- Achievable**

Go to www.ourenergy.coop to make your voice heard.

San Luis Valley Rural Electric Cooperative will deliver your message to keep electricity fair, affordable and achievable to representatives of Colorado Rural Electric Association (CREA).

CREA will hand-carry your signed messages to Washington D.C. and deliver them directly to your Senators on September 28.

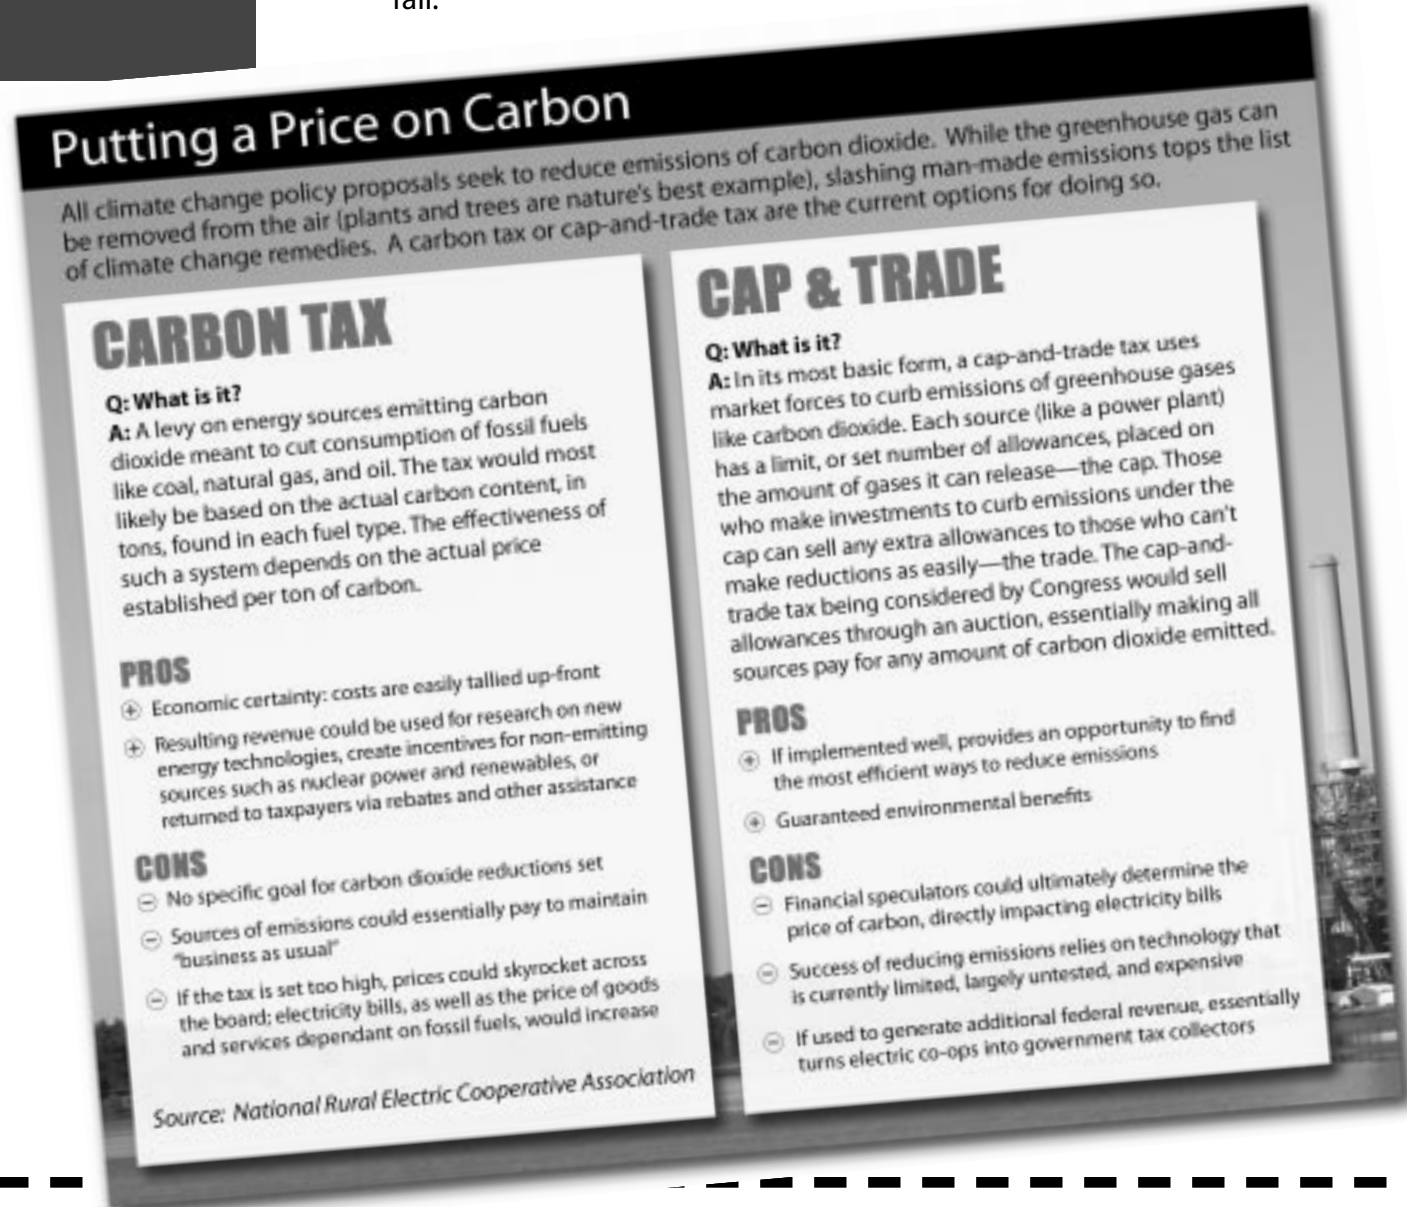

It is urgent that you complete and mail the forms below today!

Please, complete and mail today!

Dear Senator Mark Udall:

I urge you to work with my electric company as you craft climate change and energy legislation. As the U.S. Senate debates this issue, I am asking you to fight for a bill that is:

- FAIR**—Climate change legislation needs to recognize regional differences in how electricity is produced. I should not be penalized because of where I live.
- AFFORDABLE**—Any climate change plan must keep electric bills affordable for all Americans.
- ACHIEVABLE**—Climate change mandates must be realistic to ensure long-term success.

Legislation must be fair and affordable—adopting these goals will help ensure that outcome. Please work with the electric cooperatives and other utility providers to minimize the cost of combating climate change. Given these tough economic times, keeping electric bills affordable must be a priority. Please insist on legislation that's fair and affordable to the people of our great state.
